SUBJECT: City upgrading gas service in Gary New Duluth

BY: Pakou Ly, Public Information Coordinator

City upgrading gas service in Gary New Duluth

[Duluth, MN] – The City of Duluth Public Works & Utility Department will be performing work on the Great Lakes regulator station at 502 East McCuen Street. The station is in need of upgrades to allow for increased service capacity. During the work, small amounts of natural gas may be vented. The amount of gas released should be minimal and poses no hazards to residents. Gas service will not be disrupted during this upgrade.

The work will begin Tuesday, June 14 in the morning lasting into Wednesday, June 15, 2011 in the evening.

Questions can be directed to Howard Jacobson, Operations Manager, Gas and Water Supply at (218) 730-4061.
